

# SUBMIT YOUR VIDEO AND WIN!

For the 2017 Legislative Session, one bill IBEW 77 is working on is entitled

## MOVE OVER.

This legislation would require motorists to drop their speed and change lanes to avoid colliding with utility workers, including electric, natural gas, cable telecommunications workers, right-of-way crews or utility contractors. Roadway crashes are the leading cause of occupational fatalities in the United States. The Department of Safety reports that more than 100 highway and street utility/construction workers are killed each year as a result of vehicle crashes or equipment accidents on the job. Another 20,000 are injured. The Move Over law will help make our working environment safer.

## HERE IS WHERE YOU COME IN!

Submit a short cellphone video at the worksite, in your car or at home telling legislators and community members why this bill is important to workers! IT'S THAT SIMPLE!

**First 10 submissions will win an IBEW Shirt or Knife.**

### Spread the word and submit your video today!

Email submissions to [shauniewheeler@ibew77.com](mailto:shauniewheeler@ibew77.com) or text 206-437-2073.
