Old Business

- Damian Hernandez opened the meeting with a post briefing and feedback discussion on the EUSAC meeting for the new attendees.
- Steve Cant spoke on the topic of the Washington States working guidelines for wild fire smoke working rules and the structure behind state vs federal (Steve will be attending the stake holders meeting sometime in June to keep on top of the latest changes).
- Damian Hernandez opened a discussion on the committee pursuing and developing a safety day for members to attend. Discussion followed.
- Jacob Morgan informed the group on the current status of the accident investigation program. He expressed that he would like to propose some needed changes such as reduce the number of investigators, assign investigators regionally, provide covering more time-off and training to make information timelier and more consistent. A motion was proposed by Chris Henning and seconded by Trenton Hornbeck for a recommendation to the officer group to have the program revamped.
- Damian Hernandez stated that Trenton Hornbeck (Dist.1) or Jon Matheny (Dist.1) will be filling the vacancy on the Local 77 safety committee but a final decision has not been made yet.

New Business

- The committee discussed more on the safety day idea and everyone was asked to reach out to their work groups to promote it and feel out the participation level.
